

SPECIFICATIONS

SHATTERPROOF STREET LIGHT GLOBES

The following General Specifications are for all basic street light material items which shall be required in addition to the specifications for each particular item.

Complete catalogs, catalog cuts, current list price sheets, discount price sheets, installation and engineering recommendations and associated hardware catalogs shall be supplied as a part of the initial bid proposal.

Samples of items of various types may be submitted for inspection before the bid opening; all such items will be returned.

The bidder may be required to submit samples before the award and purchase order. All such samples will be returned or purchased at the bid price.

SHIPPING AND DELIVERY

All items shall be delivered prepaid freight in perfect condition to Town of Babylon Street Lighting Department, 1023 N. Indiana Avenue, Lindenhurst, N.Y. 11757.

Delivery shall be no more than 45 days from the receipt of initial purchase order and no more than 30 days from subsequent purchase orders.

Delivery shall be performed between 8 a.m. and 3 p.m. on weekdays, not including holidays, after 24 hours notice from vendor by phone or letter.

MATERIAL REQUIREMENTS

Globes shall be made of Poly-carbonate, an impact resistant plastic that does not shatter. Globes should be completely stress relieved to withstand an impact of 80 foot-pounds. Stability under impact is satisfactory through a 20 degree C. to 60 degree C. temperature range.

All globes shall be Formed Plastic or equivalent.
