

SPECIFICATIONS

HYDROLIC HOSE FITTINGS & ADAPTORS; AEROQUIP AND WEATHERHEAD CATALOGS OR EQUAL

Prior contracts for specific parts, if presently in effect with the Town (i.e. International truck parts, filters, alternators, generators) will take precedence, if duplicated in this price list.

All parts are to be new. All products to be first line products.

Vendor to supply the Town of Babylon with current manufacturer's price sheet for all items listed. The successful bidder to furnish a minimum of three (3) sets of price lists to be distributed to various departments.

Vendors bidding on other than specified price lists must first convert part numbers to specified part numbers and base the discounts on specified price lists only.

Vendor to guarantee delivery of "emergency delivery" parts within 30 minutes of receipt of an order. Delivery of stock items must be made within five (5) business days of receipt of an order.

Prices submitted will be based on percent (%) off list price. Bidder to indicate his discount on bid proposal page. Successful bidder must include both list price and net price on all invoices.

Price changes will be implemented as per manufacturer's increase or decreases. The vendor is responsible to submit the required number of updated replacement price lists.

Inventory control: Vendor agrees to adjust inventory up to 5% of annual purchases (full credit). Handling charges to be negotiated on returns exceeding 5%.

The successful bidder must provide the Town of Babylon with proof of product liability insurance in the amount of one million dollars (\$1,000,000.00), naming the Town as additional insured.

Successful bidder needs to furnish to the Town, free of charge, all equipment and dyes necessary to crimp hoses to fittings.
