

SPECIFICATIONS

AMERICAN ELECTRIC HIGH PRESSURE SODIUM STARTERS

The following General Specifications are for all basic street light material items which shall be required in addition to the specifications for each particular item.

Complete catalogs, catalog cuts, current dealer price sheets, installation and engineering recommendations and associated hardware catalogs shall be supplied as a part of the initial bid proposal.

Samples of items of various types may be submitted for inspection before the bid opening; all such samples will be returned or purchased at the bid price

The Town of Babylon reserves the right to test any material before and after delivery to the job site and to base acceptance or rejection on such test. If required, the Town of Babylon may direct the vendor to remove all rejected material from the job site at the vendors expense.
